

Scheduling for Success

Decrease stress and increase your efficiency

Quality dental team members and their doctors know the key to a stress free day and productive day is directly related to the way the day is scheduled. In this fast paced and exciting workshop you will learn advanced scheduling techniques to use the next day in your practice.

Master these key scheduling concepts:

- Scheduling for your doctor's "ideal" day
- Motivating patients to schedule for their necessary treatment
- Teamwork concepts to fill the schedule productively
- Meeting your daily production goal while providing excellence
- Communication skills for "hard to schedule" patients
- Handling emergency patients in your daily schedule
- Checking hygiene patients without running behind

Come join Amy in this key workshop designed especially for your practice!
